

The Origin of the Universe and the Solar System

Answer Key

1) Answer: B

Explanation: Nuclear fusion generates other slightly heavier elements in the universe.

2) Answer: C

Explanation: Cosmic Microwave Background (CMB) refers to the radiation left by the Big Bang.

3) Answer: A

Explanation: Redshift is produced when galaxies move away from us and wavelengths become longer.

4) Answer: D

Explanation: The solar nebula began to contract and flatten due to gravity.

5) Answer: B

Explanation: Jovian planets are planets in the outer ring of the Solar System.
