

Earth's Vital Statistics

Answer Key

1) Answer: A

Explanation: According to NASA, the actual age of the Earth is about 4.543 billion years old. Hence, among the given choices, 4.5 billion years is the closest estimation of Earth's age.

2) Answer: C

Explanation: Geosphere is composed not only of external processes that we can observe on the Earth's surface but also of internal processes that happen deep within the Earth's surface.

3) Answer: B

Explanation: It is estimated that the Hydrosphere covers about 71% of the Earth's surface.

4) Answer: D

Explanation: 97.4% of the Earth's Hydrosphere is composed of saline or salt water from oceans.

5) Answer: A

Explanation: The Biosphere refers to the band of Earth where living things reside. Take note of the word "Bio" in Biosphere which refers to life (*Bio* means life)
